Sorted by Project

# Protecting your Investment

## Is the Importance of Proper Storage for your Flooring

**Damage is Inevitable...**  
Proper Repair is Key.

### What happens when your Flooring Investment is damaged while in storage?

- Re-purchase the same flooring
  - This would more than likely be at a higher rate because this order is not as large as your initial order, which entitled you to a price break, at that time.
- Shipping Costs
- Installation Costs
- Adhesive/Trims Costs (if these were lost/damaged)
- Discontinued Products
  - In this case there is a slim chance of locating the product for re-purchase.
  - Alternative 1) Have a repair that is not an exact match
  - Alternative 2) Have the entire floor with a completely new product.

### Possible Effects

- Washington Convention Center
- MD Live! Casino
- NW Emergency Hospital
- Towson University
- Marriott
- Morgan Stanley
- BGE
- Johns Hopkins
- Hilton
- University of Maryland
